Getting situated

When first arriving at the web site, you will be met with several options:

- **Home:** This is the home page of the website
- **Make a Reservation:** This option is used to create a new reservation
- **login:** after you have created your account, this page is where you view/edit it
- **Sign Up:** before you can log in, you must use this page to create your account

In this manual, we will take a close look at all of these. But to get started using the site, you're first going to want to create an account, Let's take a closer look at first!

Creating your account:

Part 1

Clicking on the sign up option will bring you to this page. under the account information section, you will be required to enter several pieces of information:

- **A unique Email address**
- **A password**
- **password confirmation**
- **first name**
- **last name**

All of this information is required, it is also possible to enter a mobile number for use with your account, however, this is not mandatory to create your account.
